**Spring 2011: Fashion Forecast and Color Trends**

Keynote Speaker  
Luana Rubin

Savvy business owners should always look ahead to predict their customers' demands for style, color, and creativity. From the fashion runways of Europe and the U.S., to popular movies and TV shows, your customers will be looking for your help to recreate what they see in the media. Will you be ready to answer their call? Join us Monday morning for a Spring 2011 Fashion Forecast and Color Trends presentation. As a business owner herself, Luana Rubin offers you the perspective of someone who constantly anticipates the needs of her customers. Whether you sell fashion, quilting, or craft fabrics, she will give you the ammunition to successfully serve your customers in the upcoming season.

*Luana Rubin is co-owner and president of eQuilter.com in Boulder, Colorado. She is a member of the Color Marketing Group, an influential association for color design professionals whose mission is to create color forecast information. She is on their Color Visions committee, which does the most forward-looking color trend predictions. Luana also writes a weekly newsletter with fashion trends and new product reviews that is e-mailed to over 100,000 subscribers. Luana has worked as a garment and textile designer for over 25 years and is currently a licensed designer for Robert Kaufman.*
